

MathModelica™ Sales Campaign

MathModelica is a powerful, flexible and extensible system for multi-engineering and systems biology modeling and simulation. As part of the introduction of the new *MathModelica Student Edition* we will also offer a 20% discount on new *MathModelica Professional* licenses from October 19 to December 31 2009.

MathModelica Student

MathModelica Student is available for purchase through the Wolfram online store, www.wolfram.com, and comes in three different editions; regular, annual, and semester with similar prices and conditions as *Mathematica for Students*.

MathModelica Professional

From October 19 to December 31 2009 we offer the following discounted prices (20 % discount).

	Standard	Educational
Single user license	2 240 €	672 €
Floating license	2 912 €	872 €

All prices excl VAT. The discount cannot be combined with any other discounts, except for multiple license discounts, and is not applicable for classroom licenses.

Please contact MathCore or your local reseller for information about multiple license discounts, premier service, and upgrades.
